## SKILLS

|              |                                                               |
|--------------|---------------------------------------------------------------|
| Languages:   | C, C++, Java, Python                                          |
| Tools:       | Git, GitHub, Linux, Matplotlib, Tkinter, NumPy, Pandas, Maven |
| Frameworks:  | TensorFlow, Express, React, Node, Spring                      |
| Soft Skills: | Articulation, Organizer, Critical Thinking, Leadership        |

## PROJECTS

**FinTrackAI** | GitHub | Project Link | MongoDB, Express.js, Node.js, React.js. Jul' 2025

- Faced the challenge of **unstructured financial data** and manual transaction logging; built an **intelligent system** that automated **expense categorization using Generative AI** with 92% categorization accuracy, significantly reducing user effort by 65% and minimizing errors by 48%.
- Observed limited visibility into **user spending patterns**; designed an **analytics dashboard** that highlighted budgets, savings trends, and monthly financial health, boosting **financial awareness** by 70% and overall engagement by 55%.

**RepMate** | GitHub | Project Link | MongoDB, Express.js, Node.js, React.js Jun'2025 - Present

- Tackled the challenge of **unreliable and manual workout tracking**; engineered a **real-time computer-vision fitness assistant** that accurately detects reps with 96% detection accuracy, analyzes body posture, and provides **performance insights**—eliminating manual counting by 90% and improving workout precision by 60% for users.
- Identified **low user engagement in fitness apps**; introduced **progress summaries, posture feedback, rep-speed metrics**, and **gamified elements like streaks and badges**, boosting motivation by 65%, consistency by 50%, and overall user retention by 58%.

## TRAINING

**FLAMES '25 MERN with Gen AI | W3grads** | Certificate Jul'2025

- Addressed **major development bottlenecks**—skill gaps, AI inconsistencies, database lag, and deployment issues; **streamlined workflows** and optimized processes, leading to faster development, reliable AI performance, and stable deployments.
- Encountered collaboration hurdles like merge conflicts and time-zone delays; established a **strict Git workflow** and **daily SCRUMs**, which reduced conflicts and kept the team aligned.

## CERTIFICATES

- Master Generative AI & Generative AI tools (Infosys) | Certificate Aug' 2025
- Build Generative AI Apps and Solutions with No-Code Tools | Certificate Aug' 2025
- The Bits and Bytes of Computer Networking (Google) | Certificate Sep' 2024
- Computer Communications (University of Colorado) | Certificate Sep' 2024

## ACHIEVEMENT

- MEDHA 2024 Hackathon: Achieved 5<sup>th</sup> rank among 60 teams. Aug' 2024

## EDUCATION

|                                                                        |                       |
|------------------------------------------------------------------------|-----------------------|
| Lovely Professional University                                         | Phagwara, Punjab      |
| Bachelor of Technology - Computer Science and Engineering – CGPA: 8.34 | Aug' 2023 – Present   |
| Touch Wood School                                                      | Dehradun, Uttarakhand |
| Intermediate – Percentage: 80                                          | Apr' 2022 – Mar' 2023 |
| Matriculation – Percentage: 90                                         | Apr' 2020 – Mar' 2021 |
